

HEALTH CARE

Black McCuskey's Health Care Service Area is as diverse as the changing and challenging landscape of health care today. We believe health care professionals deserve the same high quality care they give their patients. For many years, our firm has served as general and special counsel for hospitals, professional practices and practitioners, nursing homes, home health care agencies, medical laboratories and other health care related businesses, both for profit and non-profit entities. In addition to these traditional providers of health care, our attorneys also represent other innovative delivery vehicles and organizations including medical foundations, physician organizations, practice management groups, an independent surgery center, a health care coalition and health care insurers.

SERVICE DIRECTORY

Black McCuskey 's services range from general business and corporate transactions to include anti-trust counseling, credentialing, employment issues in the health care area, reimbursement and cooperative structures. Our team of attorneys is also experienced in the defense of medical malpractice and other forms of claims that may be asserted in the health care area such as:
